## Privacy

The personal information that Council is collecting from you on this application is personal information for the purposes of the Privacy and Personal Information Protection Act, 1998 (PPIPA). Council will use the information and materials provided for notification and advertising purposes, and materials provided with this development proposal will be made available to the public for inspection and copying at Council's Customer Service Centre's and on the website at: [www.pmhc.nsw.gov.au/applicationtracker](http://www.pmhc.nsw.gov.au/applicationtracker).

## Copyright

The Government Information (Public Access) Act (GIPA) provides that anyone may inspect certain documents held by a council, including (among others) development applications and associated documents. It follows that anyone has a statutory right to inspect development application and associated documents, subject to GIPA, and to take away copies. A council complying with its obligation under GIPA does not breach copyright law.

However, a person who through this process obtains a copy of survey or other plans subject to copyright would be in breach of copyright law if those plans were later used in a way adverse to the interest of the holder of the copyright. For example, a person who obtains a copy of the plans and specifications for a building the subject of a development application would breach copyright law if those plans and specifications were used without the copyright holder's consent as the basis for another development proposal on a different parcel of land. Liability in such a case would rest with the person who committed the breach.

If you do copy, reproduce, republish, upload to a third party, transmit or distribute in any way plans, building specifications or other documents subject to copyright, contrary to the provisions of the Copyright Act 1968 (Cth) you will be taken to have indemnified Port Macquarie-Hastings Council against any claim or action in respect to breach of copyright.

## COMMUNICATION WITH YOU

Our primary way of staying in touch with you throughout the assessment process is by email. Determination documents, plans, consents and advice will be emailed to the applicant. Application details and approved plans are also published on our website.
