

Online Mapping

The Port Macquarie-Hastings Council Online mapping application enables you to enquire about Council's underground services, including: Water, Sewer, Stormwater, Reclaimed water and Communication assets. You can search for an address or navigate to an area of interest using the zoom and pan tools. A single left click (identify) will provide information on data at that point.

What's on this page

- Toolbar
- Moving around the map
- Find data on the map
- Printing and exporting the map
- Drawing and measuring on the map
- Searching

Toolbar

Expand the toolbar

Tools

Moving around the map

Initial view – whole Local Government Area

Go back to previous view

Move forward to next view
