

APPLICATION FOR RECYCLED WATER SIGN

INFRA002

Property details where recycled water is being used

Name of Property Owner: _____

Street No. _____ Street Name: _____

Town: _____

Contact Person: _____ Tel: _____

Details of recycled water installation

Tick if satisfied

(1) Recycled Water is not plumbed & pressurised for internal use. No other interconnection is apparent. If there is an interconnection then a BPD will be required to be installed to satisfy a AS3500. If this is the case then advise the contact person that the installation cannot be approved until a BPD is fitted.

BPD already fitted to existing meter - (OK to issue sign)

(2) Meter contains a dual check or other form of non testable device to prevent any backflow. If necessary place property on top of meter replacement list for installation of meter.

Existing Meter OK

Placed on Meter Replacement List

(3) Usage in accordance with recommendations of NSW DOH and Victorian EPA Recommendations.

NSW DOH

VIC EPA

FIELD STAFF ONLY

- NOTES**
- a) If all items above have been ticked then a sign may be issued and the form completed and returned to the office for updating of records.
 - b) If an item is outstanding, advise owner of items required i.e BPD and then to contact Council when condition satisfied.
