

T-21-1421420	2022-02-09	Class 1	Water and Sewer Design Services Panel Arrangement is a panel of consultancy firms ("consultants") that will be utilised for completing detailed designs and construction phase support in the delivery of Water and Sewer Infrastructure Projects - The key project objectives for delivery of the Design of the Thurmeister Wastewater Scheme Network, Port Macquarie is to optimise the town sewer network. The diversion of the sewer will both reduce the load and build in additional operating capacity at the Port Macquarie STP and facilitate waste water treatment in the emerging catchment of Sancroix and Thurmeister which is undergoing significant urban infill and the planning and construction of new residences to meet the population increase over the next 20 years. The contract involves the hydraulic analysis and detail design of Option 2A from the Network Optimisation and Sewer Diversion Study.
