

Mayor Pinson, CEO, Councillors –

We call upon you to support our petition to improve the acknowledged safety and congestion issues of the Oxley Highway and King Creek Road Intersection.

Our ePetition to Parliament has received 630 signatures in one week and was tabled in Parliament by The Hon Leslie Williams.

Our additional paper petition is presented to you herewith, with 1,000 signatures. This petition also forms part of the Supporting Documents for your Ordinary Council Meeting being held on Wednesday, 21 April 2021.

Sincerely,

Margot Pickering

Member of the King Creek Community and

Member of the Hastings Residents Association Inc

Gregory Franks

President

Hastings Residents Association Inc

Upgrade the King Creek Road / Oxley Highway Intersection

To the Speaker and Members of the Legislative Assembly of New South Wales we, the residents of King Creek, Wauchope and surrounding villages in the Port Macquarie-Hastings Local Government Area on the Mid North Coast Region of New South Wales, Australia, wish to bring to the attention of The House our grievances, as set out below.

We are seeking an urgent review to upgrade the safety aspects of the Oxley Highway intersection with King Creek Road, at King Creek, east of Wauchope, New South Wales in line with the heavy increase in traffic flow especially over recent years on both the Oxley Highway and along King Creek Road.

This intersection is unsafe and is extremely challenging for drivers turning onto the Oxley Highway from King Creek Road. It offers very poor visibility to vehicles turning out from King Creek Road onto the Oxley Highway in both directions.

We are very concerned about the safety of our school children on the school buses that travel along King Creek Road and have to turn onto the Oxley Highway during these high-volume traffic periods.

Furthermore, visibility of the King Creek Road turn-off is poor for vehicles travelling along the Oxley Highway in both directions, adding to the safety risks, as mentioned above, at that intersection.

We call upon State and Local Government to work together to reduce the safety risk at this intersection and improve traffic flow for local residents and visitors to the Wauchope area as a matter of urgency.

Upgrade the King Creek Road / Oxley Highway Intersection

Upgrade the King Creek Road / Oxley Highway Intersection

To the Speaker and Members of the Legislative Assembly of New South Wales we, the residents of King Creek, Wauchope and surrounding villages in the Port Macquarie-Hastings Local Government Area on the Mid North Coast Region of New South Wales, Australia, wish to bring to the attention of The House our grievances, as set out below.

We are seeking an urgent review to upgrade the safety aspects of the Oxley Highway intersection with King Creek Road, at King Creek, east of Wauchope, New South Wales in line with the heavy increase in traffic flow especially over recent years on both the Oxley Highway and along King Creek Road.

This intersection is unsafe and is extremely challenging for drivers turning onto the Oxley Highway from King Creek Road. It offers very poor visibility to vehicles turning out from King Creek Road onto the Oxley Highway in both directions.

We are very concerned about the safety of our school children on the school buses that travel along King Creek Road and have to turn onto the Oxley Highway during these high-volume traffic periods.

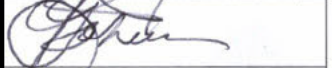

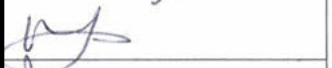

Furthermore, visibility of the King Creek Road turn-off is poor for vehicles travelling along the Oxley Highway in both directions, adding to the safety risks, as mentioned above, at that intersection.

We call upon State and Local Government to work together to reduce the safety risk at this intersection and improve traffic flow for local residents and visitors to the Wauchope area as a matter of urgency.
