

Procurement Pipeline

Upcoming procurement opportunities FY 2024/25

October 2024 | Version 1.0

PORT MACQUARIE
HASTINGS COUNCIL

About our pipeline

The Procurement Pipeline aims at improving transparency for local businesses by making procurement opportunities more visible.

Our Procurement Pipeline provides a high-level overview of our forecasted procurement opportunities planned for the next 12 months, enabling businesses to plan or express their interest. By providing this information, we hope to create a more open procurement process that benefits both our organisation and our local businesses. We believe that transparency and communication are key to building strong relationships with our suppliers and supporting our local economy.

Don't miss out on the opportunity to be a part of our upcoming procurement activities. To stay in the loop, register your details on our easy-to-use eProcurement portal. You can find all the information you need on how to register at the end of this document or on our website. By registering, you'll have access to all the latest procurement opportunities, ensuring that you never miss a chance to work with us.

**Please note that the information contained within the pipeline is to be used for planning purposes only. This pipeline does not represent an invitation for offers/tenders nor does it represent a commitment from Council to procure the goods, services or works as described within. All information in this pipeline is subject to change or cancellation. A revised pipeline will be published in March.*
